FOREIGN BROADCAST INFORMATION SERVICE

NOTE

JPRS publications contain information primarily from foreign newspapers, periodicals and books, but also from news agency transmissions and broadcasts. Materials from foreign-language sources are translated; those from English-language sources are transcribed or reprinted, with the original phrasing and other characteristics retained.

Headlines, editorial reports, and material enclosed in brackets [] are supplied by JPRS. Processing indicators such as [Text] or [Excerpt] in the first line of each item, or following the last line of a brief, indicate how the original information was processed. Where no processing indicator is given, the information was summarized or extracted.

Unfamiliar names rendered phonetically or transliterated are enclosed in parentheses. Words or names preceded by a question mark and enclosed in parentheses were not clear in the original but have been supplied as appropriate in context. Other unattributed parenthetical notes within the body of an item originate with the source. Times within items are as given by source.

The contents of this publication in no way represent the policies, views or attitudes of the U.S. Government.

PROCUREMENT OF PUBLICATIONS

JPRS publications may be ordered from the National Technical Information Service, Springfield, Virginia 22161. In ordering, it is recommended that the JPRS number, title, date and author, if applicable, of publication be cited.

Current JPRS publications are announced in Government Reports Announcements issued semi-monthly by the National Technical Information Service, and are listed in the Monthly Catalog of U.S. Government Publications issued by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Correspondence pertaining to matters other than procurement may be addressed to Joint Publications Research Service, 1000 North Glebe Road, Arlington, Virginia 22201.

REFERENCE AID
Current Chinese Serial Publications
1983 Edition

This reference aid is a complete translation of the titles listed in the China National Publishing Industry Trading Corporation [ZHONGGUO CHUBAN DUIWAI MAOYI ZONG GONGSI] 1983 Catalogue of Newspapers and Periodicals Published in China [ZHONGGUO BAOKAN MULU (1983-NIAN)].

In the original CNPITC List, the titles are arranged in 16 groups, according to type of publication. In this translation, for more general utility, they have been re-arranged into a single body presented in order of domestic-subscription index number. Newspaper titles, which are denoted by index numbers with odd prefixes, are listed in the first section of the compilation. This section is followed by the magazine titles, denoted by even prefixes; these make up the bulk of the list. An alphabetical index of Pinyin titles is appended, for cross-reference.

This year, there are 103 newspaper and 1433 periodical titles, for a total of 1536, an increase of about 40 percent over the 1981 Beijing Post Office List [see JPRS 77598, 17 March 1981].

In this translation, titles are listed in the following format:

- a) Index number
- b) Province of publication (in standard Pinyin abbreviation)
- c) Pinyin Romanization
- d) Latin title (where provided by the Chinese, mostly for journals of the Chinese Academy of Sciences)
- e) English translation of the title (an attempt has been made to adhere to English titles used by the Chinese, where known)
- f) Title in Chinese simplified characters, as they appear in the original
- g) Periodicity
- h) Annual surface or airmail subscription rates, in yuan, for foreign subscribers
